

## Body piercings, tattoos and ABI

“I really wanted to get a tattoo for my 18<sup>th</sup> birthday but Mum wasn't so keen on the idea. That just makes me want to do it more. I can't decide which tattoo I want to get.

Thing is, I'm still adjusting to my ABI and sometimes things that seemed like a good idea yesterday don't seem like such a good idea today. I change my mind a lot.

I think I'll wait until I'm a bit older and a bit more adjusted. Nurse Anna thinks this is a good idea too.”
